

Tasks:

1. Cut out the living things, glue them „into the lake“ – at the right spot – and write their names next to the pictures.

Here is a list of names: stickleback, frog, duck, beaver, swan, water-lily, water beetle, snail.

2. Using your dictionary, try to find out what the terms – fish, mammal, amphibian, insect, aquatic plant, mollusc - mean and write them down in your vocabulary book. Then match them with the animals and plants mentioned above and complete the following sentences.

Example: The duck is a bird.

The frog _____

Things to be cut out:
