Self-Introduction

Hello! I am a 17-year-old girl from Tampere named Jenna. No I study in Messukylä upper secondary school for second year. I have liked it here so far. Media and law interest me so we'll see will I work in these fields in the future... :)
 After school I like to go dancing which have been my hobbie for over 13 years now. I just can't live without it. That I do for five times a week. Plus that I spend my time hanging with my friends and doing my homework.
 I am a very social person and love meeting new people. My passion is also travelling which I do a lot. I would like to live abroad at least a part of my life.
 I have a couple of closer friends and then friends with whom I like to spend my freetime. One of those best friends is my sister who is an incredible person I think everybody should meet. In addition, my parents and our eight-year-old dog belong to my wonderful family.

My group has chose to adopt, not eating/drink any milk products.

We chose this food taboo because milk products is the most common food in our daily life.

Eugene's adoption period

First day of adoption period

This is my first day of my adopton period.I cannot drink any milk products for 3 days.In the morning,i had a bowl of wanton noodle and a cup of orange juice.for my lunch,i ate porridge with an egg.for dinner,i had a bowl of rice and some vegetables and meat.

Second day of adoption period

My second day not drinking any milk product.I feel that not drinking milk really make me feel tired.As for my breakfast,i had 2 pieces of bread with kaya.I drink water.I went to play badminton with my friends.Before that i went to macdonald to have my lunch.Dinner time again.i ate a bowl of rice at home with some chicken wings,fish and egg soup.

Third day of adoption period

My last day of my adoption period.I am so happy.I can have milk products again.In the morning,I did not have my breakfast because i woke up wuite late and i need to go to library to meet my friend to do the science project.I had my lunch at kopitian.i ate fishball noodle and a cup of lemon tea.For dinner,my grandmother cook a bowl of curry chicken noodles and some oher food,unfortunately i cannot eat my favourite curry because there are coconut milk in it.So i only ate a bowl of noodles wth vegetables,meat,egg and fish.i also drink apple tea.Thats the end of my adoption period.
