A Foodchain

Task:

Create a foodchain (: =a sequence of organisms, each of which feeds on the preceding)

by connecting the organisms below with arrows (→ meaning: "is eaten by")

and write the correct terms (*producer, primary consumer, secondary consumer, tertiary consumer*) next to them.

A Food Chain

Task:

Create a food chain (: =a sequence of organisms, each of which feeds on the preceding)

by connecting the organisms below with arrows ($\rightarrow$ meaning: "is eaten by")

and write the correct terms (*producer, primary consumer, secondary consumer, tertiary consumer*) next to them.
